THE CENTRAL TEXAS LAND-CLEARING COST GUIDE

What clearing an acre really costs in the Hill Country — the five things that move the price, honest per-acre ranges, and the questions that protect your budget.

WHAT LAND CLEARING ACTUALLY COSTS

Land clearing in Central Texas is usually priced by the acre — but no two properties are the same. A flat acre of light cedar saplings and a steep acre of dense oak-and-cedar thicket can differ by thousands of dollars. This guide gives you real ranges and shows you exactly what drives them, so you can budget with confidence and spot a fair quote when you see one.

WHY MULCHING SAVES MONEY

Forestry mulching turns brush and trees into a fine mulch that stays on your land as erosion control. There's no hauling, no burning, and no separate cleanup bill — which is why it's usually the most cost-effective way to clear in the Hill Country.

5 THINGS THAT MOVE THE PRICE

- »» **Vegetation density.** Light brush and saplings clear fast. Heavy cedar, mature hardwoods, and thick thickets take more passes and more time.
- »» **Terrain & slope.** Flat, dry ground is quick. Steep grades, rock, and wet bottoms slow equipment and add cost.
- »» **What happens to the debris.** Mulching on site is cheapest. Hauling off or burning adds trucking, dump fees, and permit time.
- »» **Access.** Easy gate access and room to maneuver keep costs down. Tight, remote, or fenced sites add mobilization time.
- »» **Total acreage.** Per-acre rates usually drop as the job gets bigger — mobilizing equipment for half an acre costs the same as for five.

THE CAT 275 + WEILER M860A AT WORK — SPRING BRANCH, TX

TYPICAL CENTRAL TEXAS RANGES

Per-acre ranges we commonly see in the Spring Branch / Hill Country area. Use them to budget — your exact number comes from a walk-the-land estimate.

TYPE OF WORK	TYPICAL RANGE / ACRE
Light brush & cedar saplings (mulching)	\$1,200 – \$2,200
Moderate mixed woods (mulching)	\$2,000 – \$3,500
Heavy cedar / dense thicket (mulching)	\$3,000 – \$4,500
Traditional dozer clear + haul-off	\$3,500 – \$6,500
Selective / precision line clearing	Priced per day or linear ft

Add-ons that can affect a quote: long mobilization distance, stump grinding, very steep or rocky ground, hauling instead of mulching, and burn-ban delays.

7 QUESTIONS TO ASK ANY CONTRACTOR

Before you sign anything, run the crew through this checklist. The right answers protect your land and your budget.

- ☐ Are you fully insured? Ask for a certificate.
- ☐ What equipment do you run? (Pro machines like the CAT 275 and Weiler M860A finish cleaner and faster.)
- ☐ What does the finished ground look like — fine mulch, or chunks and ruts?
- ☐ How is the debris handled, and is cleanup included in the price?
- ☐ What's the realistic timeline, start to finish?
- ☐ Can I see before-and-after photos of similar properties?
- ☐ Is the quote fixed and written, with no percentage-of-spend surprises?

READY WHEN YOU ARE.

Tell us about your property and we'll walk the land with you — no pressure, no percentage-of-spend games. You'll know the cost before we start.

- ✓ Free, walk-the-land estimate
- ✓ Insured · pro-grade CAT 275 & Weiler M860A equipment
- ✓ Fine, finished mulch — not chunks and ruts
